This is called a distracted hoard of planets on the outskirts of the Borderlands, untouched by achievement and abundant in resources and possibilities. For the residents of the Odludzia, however, excitement is of tiny value, and the danger lurks at all turn. subsequent to local settlers, explorers and bandits spent their whole lives in an endless torment yourself for power. Now they grant their disputes at the Apex Games - brutal competitions in which legends from every corners of the Borderlands battle for money, fame and glory.
